EDITORIAL NOTICE

Journal abbreviations cited in PSYCHOLOGICAL ABSTRACTS follow those of the WORLD LIST OF SCIENTIFIC PERIODICALS, 2nd edition, 1934 (Oxford University Press).

THE EDITORS

THE PSYCHOLOGICAL EXCHANGE

(The professional journal of psychologists)

11 EAST 125TH STREET
NEW YORK CITY

Published bi-monthly
Subscription \$3.00 annually

FUNCTIONS

- I Research.** The Psychological Exchange lists titles of research under way, to enable inter-communication of those interested in similar problems, and to secure permanent library reference for unpublished material. It also maintains a Research Lending Library in which psychologists are invited to deposit typed copies of unpublished research for general circulation.
- II Placement Information Service.** The Psychological Exchange provides a clearing house for those in need of psychologists and psychologists who are available for employment. Keyed notices are printed in the journal, and circulars issued regarding opportunities that arise. This service is limited to subscribers.
- III Articles.** The Psychological Exchange prints articles regarding psychology as a profession. Studies of the duties of the psychologist in school, court, prison, mental hospital, personnel work, vocational guidance, and industry will appear. A forum is maintained for the discussion of professional problems.
- IV News.** The Psychological Exchange prints news of the activities of psychologists all over the country. Contributions are invited.

INTERNATIONAL REVIEW OF SCIENTIFIC SYNTHESIS

Published every month (each number containing 100 to 120 pages)

Editors: F. BOTTAZZI - G. BRUNI - F. ENRIQUES

General Secretary: Paolo Bonetti

"SCIENTIA"

IS THE ONLY REVIEW the contributors to which are really international.

IS THE ONLY REVIEW that has a really world-wide circulation.

IS THE ONLY REVIEW of scientific synthesis and unification that deals with the fundamental questions of all sciences: mathematics, astronomy, geology, physics, chemistry, biology, psychology, ethnology, linguistics; history of science; philosophy of science.

IS THE ONLY REVIEW that by means of enquiries among the most eminent scientists and authors of all countries (*On the philosophical principles of the various sciences; On the most fundamental astronomical and physical questions of current interest; On the contribution that the different countries have given to the development of various branches of knowledge; On the more important biological questions, etc., etc.*), studies all the main problems discussed in intellectual circles all over the world, and represents at the same time the first attempt at an international organization of philosophical and scientific progress.

IS THE ONLY REVIEW that among its contributors can boast of the most illustrious men of science in the whole world.

The articles are published in the language of their authors, and every number has a supplement containing the French translation of all the articles that are not French. The review is thus completely accessible to those who know only French. (Write for a free copy to the General Secretary of "Scientia," Milan, sending 16 cents in stamps of your country, merely to cover packing and postage.)

SUBSCRIPTION: \$13.50 Post free

Substantial reductions are granted to those who take up more than one year's subscription.
